
FAST

Functional Academic Skills Training

Functional Academic Skills Training (FAST) provides soldiers with on-duty instruction in reading, mathematics and language skills. The objective is to improve job performance; prepares soldiers for more advance academic courses; increases military career options; and enhances educational skills. The FAST class is a 60-hour academic course and limited to twenty students. The duration of the class is three weeks for four hours each day (Mon-Fri.). It is strongly advised that military personnel with a GT Score below 100 and non-high school graduates take advantage of this program. The class is free to all logistically supported personnel and their family members. Family members may enroll on a space-available basis. To enroll in the FAST Class, the student should contact an educational counselor to determine eligibility and placement. For additional information, contact the Pioneer Education Center at DSN 322-8380.

***If you want to improve your GT score, enroll in the
FAST Class today!***

SCHEDULE

OF FAST CLASSES*
